

4 DRUM SPILL PALLET

Product code: ECO4DRUM/PE

Product description: four drum spill pallet with black polyethylene grid

Product Information					
Height	Width	Length	Capacity	Colour	Weight
300mm	1355mm	1355mm	355 litres	Yellow (black grid)	40kg

Sizes approximate, owing to shrinkage

PRODUCT NOTES:

- Spill pallets must be sited on level, fully supporting base
- If unsure, please call to check material compatibility with product stored

STORAGE BASICS:

- Clearly label individual containers with details of contents and any hazard they pose
- Display warning signs, e.g. appropriate hazardous substances symbols (pictograms), at access points to dedicated stores
- Store different materials separately so they cannot mix if a leak occurs (this is a legal requirement for some substances - see HSE guidelines)
- Only keep the minimum working quantity of materials on site
- Protect storage from extremes in weather whenever possible, e.g. sunlight, frost
- Keep storage areas away, or isolated, from on-site drainage, surface waters and groundwater and vehicle routes.

PRODUCT DETAILS:

- Heavy duty pallet and grid
- Low profile makes loading easy
- Manufactured from 100% polyethylene with the latest UV stabilisation package
- 4 way forklift entry (only move unloaded)
- Sturdy grid, removable for easy cleaning
- UDL: 1000kg
- Available in a variety of colours upon request

The Ecosure 4 Drum Spill Pallet will help you to comply with the current oil and chemical storage regulations. Specially constructed to support heavy loads, it is ideal for the long term safe storage of standard 205 litre drums. Made entirely from polyethylene, it is suitable for use with all oils and most non-combustible chemicals. In the event of a leak, fluid is contained in the sump, preventing contamination to the environment.

BENEFITS:

- Protects the workplace, environment and personnel
- Designed for the safe storage of 4 x 205 litre drums
- Retains long term structural integrity
- Maintenance free

COMPLIANCE

- Compliant with the 110% bund regulations
- No drainage points to compromise the bund area
